Experiment 7

Student Name: Jyoti Kumari UID: 23BCS10877

Branch: BE-CSE Section/Group: KRG-3B

Semester: 5 Date of performance: 29-10-2025

Subject name: ADBMS Subject code: 23CSP-333

MEDIUM LEVEL PROBLEM

Requirements: design a trigger which:

1. Whenever there is a insertion or deletion on student table then, the currently inserted or deleted row should be printed on the console.

CODE:

```
-- create student table for testing
CREATE TABLE IF NOT EXISTS student (
  id SERIAL PRIMARY KEY,
  name TEXT NOT NULL,
  age INTEGER,
  class TEXT
);
-- function for student audit (prints inserted/deleted row using RAISE NOTICE)
CREATE OR REPLACE FUNCTION fn student audit()
RETURNS TRIGGER
LANGUAGE plpgsql
AS
$$
BEGIN
  IF TG OP = 'INSERT' THEN
    RAISE NOTICE 'Inserted Row -> ID: %, Name: %, Age: %, Class: %',
```

```
NEW.id, NEW.name, NEW.age, NEW.class;
      RETURN NEW;
  ELSIF TG OP = 'DELETE' THEN
    RAISE NOTICE 'Deleted Row -> ID: %, Name: %, Age: %, Class: %',
           OLD.id, OLD.name, OLD.age, OLD.class;
    RETURN OLD;
  END IF;
  RETURN NULL;
END;
$$;
-- trigger for student table
DROP TRIGGER IF EXISTS trg student audit ON student;
CREATE TRIGGER trg student audit
AFTER INSERT OR DELETE ON student
FOR EACH ROW
EXECUTE FUNCTION fn student audit();
```

HARD LEVEL PROBLEM

Requirements: Design postgresql triggers that:

1. Whenever a new employee is inserted in tbl_employee, a record should be added to tbl_employee audit:

```
"Employee name <emp name> has been added at <current_time>"
```

2. Whenever an employee is deleted from tbl_employee, a record should be added to tbl_employee_audit:

"Employee name <emp_name> has been deleted at <current_time>"

CODE:

```
-- Create employee tables
CREATE TABLE IF NOT EXISTS tbl employee (
  emp id SERIAL PRIMARY KEY,
  emp name VARCHAR(100) NOT NULL,
  emp salary NUMERIC
);
CREATE TABLE IF NOT EXISTS tbl_employee_audit (
  sno SERIAL PRIMARY KEY,
  message TEXT
);
-- function to insert audit messages into tbl employee audit
CREATE OR REPLACE FUNCTION audit employee changes()
RETURNS TRIGGER
LANGUAGE plpgsql
AS
$$
BEGIN
```

```
IF TG_OP = 'INSERT' THEN
    INSERT INTO tbl_employee_audit(message)
    VALUES (
      'Employee name ' || NEW.emp name || ' has been added at ' ||
      to_char(NOW(), 'YYYY-MM-DD HH24:MI:SS')
    );
    RETURN NEW;
  ELSIF TG OP = 'DELETE' THEN
    INSERT INTO tbl_employee_audit(message)
    VALUES (
      'Employee name ' || OLD.emp name || ' has been deleted at ' ||
      to\_char(NOW(), 'YYYY-MM-DD\ HH24:MI:SS')
    );
    RETURN OLD;
  END IF;
  RETURN NULL;
END:
$$;
-- trigger for tbl employee
DROP TRIGGER IF EXISTS trg_employee_audit ON tbl_employee;
CREATE TRIGGER trg employee audit
AFTER INSERT OR DELETE ON tbl employee
FOR EACH ROW
EXECUTE FUNCTION audit employee changes();
```

```
Discover. Learn. Empower.
```

----- TESTING THE TRIGGERS -----

-- clear tables for a clean test (optional)

TRUNCATE TABLE tbl employee audit RESTART IDENTITY;

TRUNCATE TABLE tbl employee RESTART IDENTITY;

TRUNCATE TABLE student RESTART IDENTITY;

-- Test student trigger (you should see RAISE NOTICE messages in the console)

INSERT INTO student(name, age, class) VALUES ('Aniket', 15, '10A');

INSERT INTO student(name, age, class) VALUES ('Tanmay', 16, '11B');

DELETE FROM student WHERE name = 'Aniket';

-- Test employee trigger

INSERT INTO tbl employee(emp name, emp salary) VALUES ('Jyoti', 50000);

INSERT INTO tbl employee(emp name, emp salary) VALUES ('Neha', 65000);

DELETE FROM tbl employee WHERE emp name = 'Jyoti';

-- Check audit logs

SELECT * FROM tbl employee audit ORDER BY sno;

```
psql:commands.sql:42: NOTICE: trigger "trg_student_audit" for relation "student" does not exist, skipping psql:commands.sql:100: NOTICE: trigger "trg_employee_audit" for relation "tbl_employee" does not exist, skipping psql:commands.sql:115: NOTICE: Inserted Row -> ID: 1, Name: Aniket, Age: 15, Class: 10A psql:commands.sql:116: NOTICE: Inserted Row -> ID: 2, Name: Tanmay, Age: 16, Class: 11B psql:commands.sql:117: NOTICE: Deleted Row -> ID: 1, Name: Aniket, Age: 15, Class: 10A
```
